FOR IMMEDIATE RELEASE

BTU International Appoints Bruce Quigley as Global Service Manager

NORTH BILLERICA, Mass., Sept. 1, 2010 — BTU International, a leading supplier of advanced thermal processing equipment for the alternative energy and electronics manufacturing markets, today announced the appointment of Bruce Quigley as global service manager.

Quigley comes to BTU with an extensive background in managing customer support organizations around the world. Prior to accepting the position with BTU, Quigley was customer service manager for a large US-based capital equipment supplier. In addition to his management experience, Quigley has held challenging technical roles in field service and applications engineering. He holds a bachelor's degree in business management from Assumption College.

"We are pleased to have Bruce as the new leader of our expanding customer support team. Working from both our U.S. and Shanghai facilities, Bruce will be responsible for our entire global service organization," said Jim Griffin, vice president sales and service for BTU International.

"I'm very excited about this opportunity to work with BTU's global customers and customer support team. We look forward to strengthening, even further, the coordinated approach to global service excellence provided by BTU," said Quigley. "The combination of this strategic global program and the outstanding quality built into BTU equipment will further enhance customer satisfaction with the BTU experience."

About BTU International

BTU International is a market-leading, global supplier of advanced thermal processing equipment to the alternative energy and electronics assembly markets. BTU's equipment and expertise are used in the manufacturing of solar cells and nuclear fuel as well as the production of printed circuit board

assemblies and semiconductor packaging. BTU has design and manufacturing operations in North Billerica, Massachusetts and Shanghai, China with direct sales and service worldwide. Information about BTU International is available at www.btu.com.
