SUN CHEMICAL CIRCUITS EXPANDS TEAM IN CHINA

Midsomer Norton, England – May 18, 2007 - Sun Chemical Circuits has strengthened its technical sales team for its Screen business in China in response to the rapidly expanding market.

The company, which is one of the world's leading suppliers of inks and resists to the printed circuit board (PCB) manufacturing industry, has appointed Hammond Wen as technical sales manager. Wen joins Sun Chemical Circuits with substantial experience in the Chinese Circuits industry.

Based in Shenzhen, his key objectives include driving growth of Sun Chemical Circuit's market share in the region and providing technical sales support to current customers and distributors / agents.

Wen, formerly with Fidder Enterprise (HK) Ltd, said: "I look forward to working with the expanding team within Sun Chemical Circuits China, and meeting the challenges from this growing market."

Richard Martin, global vice-president, Sun Chemical Screen & Circuits, said: "We have been supplying products to the Chinese Circuits market since the early 1980s. Our sales in the region have showed good growth over the last few years, and we will be continuing working hard to build on this success and grow our teams further."

Sun Chemical Circuits has been a supplier of inks and resists to the PCB industry for over 45 years and continues to adapt to the changing demands from its customers and OEM requirements.
