## **CRYTEK ANNOUNCES NEW DISTRIBUTION AGREEMENT WITH ALLIED ELECTRONICS**

**Fort Myers, FL, October 12, 2007** – Crystek Corporation has signed an agreement with Allied Electronics, a subsidiary of Electrocomponents plc (LSE: ECM), naming Allied as a distributor of Crystek's portfolio of frequency control technology.

“Allied’s 55 sales branches and dedicated local representatives combined with Crystek’s wide selection of frequency control products will make this a strategic partnership that will allow both of our organizations to continue to grow,” said Anthony Mastropole, president of Crystek Corporation.

Allied will carry a broad range of products from Crystek, including quartz crystals, clock oscillators, TCXOs, OCXOs, VCXOs, VCOs and more. The Crystek product line will be featured in the new Allied catalog scheduled to debut in October 2007.

**About Crystek Corporation:** Crystek Corporation® is a leading manufacturer of Frequency Control Products – quartz crystals, XOs (clock oscillators), TCXOs (temperature compensated oscillators), VCOs (voltage controlled oscillators), VCXOs (voltage controlled crystal oscillators), and TCVCXOs (temperature compensated voltage controlled oscillators). Founded in 1958, Crystek’s capabilities include custom manufacturing of quartz crystal and oscillators from quartz bars through packaged and tested finished products. Crystek’s facilities include climate controlled manufacturing plants and state-of-the-art product validation centers. Crystek’s on-site warehousing facility boasts an inventory of more than five million items, which allows the company to respond to most customer requests on a next day basis.

**About Allied Electronics:** Allied Electronics’ headquarters are located in Fort Worth, Texas with 55 sales branches across the United States and Canada. Allied is a subsidiary of Electrocomponents plc (LSE: ECM), the world leading catalog component distributor. Electrocomponents has operations in six continents and headquarters in Oxford, England.
