

***Everett Charles Technologies' Contact Products Group
Appoints Global Sales Director***

Pomona, Calif., August 30, 2010 – Everett Charles Technologies' (ECT) Contact Products Group (CPG) is announces the creation of a new Global Sales Director position and has selected Gary Stoffer to fulfill this role to lead the CPG field sales and customer service organization worldwide.

"Gary's global experience will prove invaluable to CPG as we strive to further penetrate the international markets, especially in Asia, with our LFRE™, MetriX™, and new ZIP® probe product lines," said Bud Fabian, President.

Gary has spent approximately 11 years at ECT in various sales management positions with atg Luther & Maelzer GmbH selling its line of bare board flying prober and automatic universal grid testers in both North America and Asia. Over the last three years, Gary has been based in Hong Kong directing atg Luther & Maelzer's worldwide sales.

Everett Charles Technologies is a subsidiary of Dover Corporation (NYSE: DOV) a leading manufacturer of electrical test products and services, including Pogo® test contacts, semiconductor test products, bare-board automatic test systems, and bare and loaded PCB test fixtures. ECT manufacturing, service, and support facilities are ISO registered with locations throughout the United States, Europe, and Asia. The company has been awarded numerous patents and participates actively in developing industry standards. Corporate offices for Everett Charles Technologies are located at 700 E. Harrison Ave., Pomona, CA, USA 91767. Additional information about ECT is available via the Internet at www.ectinfo.com.
