Indium's Dr. Lasky to Present at the International Lead-Free Conference in Berlin

Indium Corporation's Senior Technologist, Dr. Ronald C. Lasky, Ph.D., will present on WEEE and RoHS compliance at the upcoming IPC/JEDEC International Lead-Free Conference in Berlin, Germany on October 4-5, 2007.

Dr. Lasky's presentation, "A Procrastinator's Guide to Rapid WEEE and RoHS Compliance", will provide examples, tools and recommendations on developing a Pb-free and RoHS compliant assembly in a minimum amount of time. While addressing the entire SMT process, the workshop will provide a planning checklist to create a rapid implementation plan.

Dr. Lasky, holder of the prestigious SMTA Founder's Award, is a world-renown process expert and a visiting professor at Dartmouth College. He has over 20 years of experience in electronics and optoelectronic packaging and assembly. He has authored or edited five books and numerous technical papers, and holds several patent disclosures.

Indium Corporation is a four-time Frost & Sullivan Award-winning supplier of electronics assembly and semiconductor packaging materials, including solder pastes, solder preforms, fluxes, Pb-Free solder alloys, underfill materials, die-attach materials, and more. The company is also the world's premiere supplier of commercial grade and high-purity indium. Factories are located in the USA, the United Kingdom, Singapore, and China. Founded in 1934, the company is ISO 9001 registered.
