## **NEWS RELEASE**

### **FOR IMMEDIATE RELEASE**

**DATE: January 18, 2010**

### **MicroScreen Announces Addition to Staff of Creyr Innovation**

**South Bend, IN.** MicroScreen is pleased to announce increased customer support in the New England area, through their existing representative group, Creyr Innovation.

Effective immediately, Joe Belmonte has become part of the Creyr Innovation team. According to Jim McLenaghan of Creyr, “ Joe brings a wealth of knowledge and experience including managing advanced process development projects such as Pb free, miniature component assembly, developing and conducting process training programs, and working with customers on quality, cycle time, and cost improvement projects.”

He has been a member of SMTA since 1985 and currently serves on its Board of Directors.
