Milara Appoints Viking Test Services as Representative for Europe

Medway, MA — August 2010 —Milara Inc., a leader in stencil printing technological innovation, has appointed Viking Test Services as its representative throughout Europe.

Viking Test Services was established almost 30 years ago, and is the leading UK PCB service and equipment supplier, providing quality products and services throughout Europe. The company already provides a range of new and innovative products for the PCB manufacturing industry and, with the addition of the latest electronics production equipment from Milara, it now can provide a complete solution for the industry.

The partnership between Viking Test Services and Milara in Europe will provide customers with local support from an established organization. Both companies are leaders in the industry and this new partnership will provide customers with the highest level of technical support. As Milara continues to expand its range of printer systems and with new developments on the horizon, both companies will be able to capitalize on these new opportunities.

“We have been searching for a viable representative in the UK for quite some time and are very pleased with what Viking has to offer, having 30 years experience with product installation and support,” said Stephen Brodeur, Program Director at Milara Inc.

Viking Test Services will represent Milara’s full line of fully and semiautomatic printers for the SMT and semiconductor industries throughout the UK. For more information on Viking Test’s products and services, contact Jake Kelly at +44 (0)1420 537 020 or on the Web at www.vikingtest.com.
