P.D. Circuits' Employees Receive Principles of Lean Certification

HAMPSTEAD, N.H. — June 2010 — P.D. Circuits, Inc., specializing in delivering the highest quality PCBs, technical support, and service to OEM and EMS companies worldwide, announces that all of its employees recently received the Principles of Lean Certification from the New Hampshire Manufacturing Extension Partnership (NHMEP).

P.D. Circuits was awarded a grant in February 2010 in the amount of \$10,524 to be used toward Lean Processing training. Awarded by the New Hampshire Job Training Fund, the grant is designed to enhance work skills and to help New Hampshire companies maintain leadership positions in competitive global markets. The training included the Principles of Lean Processing, Value Stream Mapping Systems and effective Kaizen event implementation.

“The lean certification and implementation at P.D. Circuits is evidence of our commitment to the continual improvement of our company and our drive to provide superior support to our customers” said David Wolff, President of P. D. Circuits. “Our customers will see the benefits of our implementation of lean principles in shorter lead times, lower inventory levels, and the delivery of high-quality PCBs at competitive prices.”

Through the Job Training Fund, the State of New Hampshire matches businesses dollar for dollar in their efforts to attract new businesses, assist in the expansion of business and retain business in the State of New Hampshire.

About P.D. Circuits Inc.

P.D. Circuits is the leading printed circuit supply chain management company. From material selection and up-front engineering to manufacturing, logistics and inventory management, PDC provides the full spectrum of PCB supply

chain management services. The experienced circuit board professionals of P.D. Circuits match customer needs to the core competence of its fabrication partners in North America and Asia. The company's Asian Operations Center, located in Shenzhen, China ensures the continued success of over 16 years of offshore sourcing. On-site inspection at the fabricating facilities is conducted by the IPC600 Certified PDC China QC team in conjunction with its in-house cross section lab. The company is ISO 9001:2008 certified and ITAR registered, with headquarters located in New Hampshire. For more information visit us at www.pdcircuits.com.
