SMTA Accepting Applications for Board of Directors

Minneapolis, MN - The SMTA is currently seeking committed individuals for its Board of Directors. Candidates should have valuable skills and ideas to continue our mission of helping members succeed in electronics assembly and related business operations.

The SMTA is a volunteer-driven organization, meaning that from our chapters and educational programs to strategic planning and budget allocation, the SMTA relies on volunteers for the dynamic leadership which is so important to our members.

Nominations are being accepted through April 23, 2010 for the term that begins at SMTA International, October 24-28 in Orlando, FL. The only requirement is that candidates are SMTA members who have demonstrated commitment to the association.

In addition to leadership opportunities, the numerous benefits of serving on the board include exposure to personal and professional contacts and the chance to exchange ideas with fellow leaders. If you are interested in serving or know of potential board members, visit the website listed below for more information or contact JoAnn Stromberg at joann@smta.org, 952-920-7682.

Visit <http://www.smta.org/nominations/nominations.cfm> for more information and to submit your nomination.

The SMTA membership is an international network of professionals who build skills, share practical experience and develop solutions in electronic assembly technologies, including microsystems, emerging technologies, and related business operations.
