FOR IMMEDIATE RELEASE

Press Release No.: 902

Date: 28 July 2010

GENESIS becomes GOPEL electronic's new GATE Partner in Singapore

GOPEL electronic, worldwide leading vendor of JTAG/Boundary Scan solutions compliant with IEEE1149.x announces the extended incorporation of Genesis Test Integration PTE Ltd (GTI) into the global alliance program GATE™ (GOPEL Associated Technical Experts).

The focus of the cooperation is the integration of the leading JTAG/Boundary Scan solutions SCANFLEX® related to SYSTEM CASCON™ as well as SCANBOOSTER™ technology in their functional test fixtures. Thus, the customer will get a total test and integration solution from one source.

"I'm happy that we can now offer an improved support to our Singaporean customers", says Ralph Dressler, the regional GATE Program Manager at GOPEL electronics Asia. "The first sophisticated projects are already successfully finished. Hence, the admission in our GATE partner program was a logical step for us."

"By expanding and collaborating with GOPEL electronic in JTAG/Boundary Scan test solution extends our business unit into new era providing an extensive full turnkey test solution package to our esteem customers", says SK Chan, Director of GTI. "GTI looks forward to ensure the GATE program participation with GOPEL electronic is taken to the highest level of excellence into the market."

The company was incorporated into the GATE™ program as a Select Member and will be active in Singapore. Besides the integration of GOPEL electronic's Boundary Scan hardware and software GENESIS develops test programs and is able to give seminars and trainings.

About GOEPEL electronic:

GOEPEL electronic is a worldwide leading vendor of professional JTAG/Boundary Scan solutions and technology innovator of IP based instrumentation. With more than 100 new product launches over the last five years alone the company established its position as the market's leading innovator.
