Datapaq partners with Powell Industries to serve the Northwest States and Provinces

March 2006 – Datapaq, Inc. is pleased to announce that Powell Industries of Issaquah, WA is the manufacturers representative for their Reflow Tracker Temperature Profiling System products in the States of Washington, Oregon, Idaho and the Province of British Columbia. Manufacturers can contact Mike Powell of Powell Industries at 425-531-0802 (www.powellindustries.com) or Datapaq's Rich Burke at 978-988-9000 (www.datapaq.com)

Founded in 1991, Powell Industries provides process solutions in the electronics manufacturing industry as both a manufacturer's representative for capital equipment and as a local stocking distributor.

Founded in 1984, Datapaq is now the industry leader for temperature measurement and analysis systems. With the use of the most advanced and highly tested techniques for accurately gathering and storing information, Datapaq has created industry specific standards to analyze, synthesize and report information in a precise, succinct manner.

Datapaq's product lines include Oven Tracker, Furnace Tracker, Reflow Tracker, Kiln Tracker, and Multi Tracker. Recognized as an industry leader, these products serve automotive, finishing, can manufacturing, textile processing, ceramic manufacturing, PCB surface mounting, heat-treating, and food processing industries throughout the world.
