## **Ultrasonic Systems, Inc. Introduces New *Ultra-Cure* UV Curing Module**

Haverhill, MA – USI's *Ultra-Cure* UV Curing Module offers reliable, fast and safe topside curing of UV curable conformal coatings, and other UV curable materials. The *Ultra-Cure* system utilizes a modular design to deliver consistent curing of various width substrates up to 18" (457 mm).

The *Ultra-Cure* System is equipped with Fusion UV Systems Model F300 SQ lamps and is designed to accommodate up to three 6" (152 mm) lamps. The Module uses a PLC based control system with an operator interface terminal (OIT) for setup and alerting. The conveyor utilizes stainless steel pin chain with hand crank width adjust and is fully SMEMA compatible.

If you would like more details on the *Ultra-Cure* UV Curing Module contact Bob LePage at 978-521-0095 or via email at [rlpage@ultraspray.com](mailto:rlpage@ultraspray.com).
