

PRESS RELEASE

FOR IMMEDIATE RELEASE

Dage Precision Industries' David Bernard at SMTAI Process Clinic

October 4, 2007, Fremont, California – Dage Precision Industries, the industry leader in digital x-ray inspection technology, is pleased to announce that David Bernard, product manager x-ray systems, will participate in the Process Advice and Defect Clinic at the upcoming SMTA International conference and exhibition to be held in Orlando, Florida from October 9-11, 2007.

Dr. Bernard will offer free and unbiased technical advice to help visitors with common process problems, RoHS compliance issues and field failure analysis. David will join international consultant Bob Willis, an SMTA lead-free auditor and workshop instructor, in staffing the Process Advice and Defect Clinic.

Visitors to SMTA International are encouraged to bring board assemblies for examination or process problems for discussion and review. Inspection equipment provided in the feature area will assist visitors to better understand the process problem and suggested solutions.

With Americas headquarters located in Fremont, California, Dage Precision Industries, Inc. manufactures and supports a complete range of award winning digital x-ray inspection systems and bond test equipment for the printed circuit board assembly and semiconductor industries.
