FOR IMMEDIATE RELEASE

**VJ Technologies to Exhibit Summit 1800 Rework Platform at
Electronica/Productronica India 2010**

August 2010 — VJ Technologies, Inc., the leader in rework technologies and global provider of advanced X-ray inspection systems, announces that it will exhibit its Summit 1800 Performance Rework Platform in distributor Trans-Tec's booth 1430 at the upcoming Electronica/Productronica India 2010, scheduled to take place September 7–10, 2010 at the Bangalore International Exhibition Centre (BIEC) in Bengaluru, India.

The **Summit 1800** Performance Rework Platform incorporates all of the innovative features that have been developed since the invention of high-level, semiautomatic surface mount and microelectronics rework technology.

Extensive field experience and user feedback have resulted in the development of rework systems that exceed current and future industry requirements. Advanced rework software with intuitive 1-2-3 Go! operator interface and Auto Profile maximizes ease of use and throughput, while maintaining the inherent capability to rework today's most complex area-array components.

###

About VJ Technologies

VJ Technologies, Inc. manufactures production ready, automated Rework and X-ray inspection solutions with many advanced capabilities. The company also provides custom Rework and X-ray solutions tailored to satisfy specific application requirements. VJ Technologies is a worldwide leader in X-ray Inspection and Rework Solutions.
