Ventec hires US West Coast Technical Sales Manager

18th March 2019 – Ventec International Group Co., Ltd. (6672 TT), a world leader in the production of polyimide & high reliability epoxy laminates and prepregs and specialist provider of thermal management and IMS solutions, announces that Sharad Ribadia will be joining the US-technical sales team on 19th March 2019. Sharad will oversee technical sales in the West Coast region of the USA focusing on Ventec’s core market segments: Mil/Aero, Automotive & Wireless Technology, offering a full range of high-reliability materials including polyimide, IMS and thermal management products.

Sharad has a Bachelor of Science in Electrical and Computer Engineering from the University of California, San Diego and over 10 years of engineering and technical sales experience. He brings with him strong and proven account management skills that enable him to offer Ventec’s US West Coast customers advice and recommendations on the selection and specification of materials that ensure optimum product performance and cost-effectiveness.

Jack Pattie, President of Ventec USA comments: ‘Along with Ventec’s increasing market share and growing world-wide operations, we are experiencing a significant rise in demand for our solutions in the USA and beyond. To support the growth, our current global recruitment drive ensures that we continue to provide industry-leading technical support services and we are delighted to welcome Sharad to Ventec as our latest member of the sales team.’

For more information about Ventec's solutions and the company’s wide variety of products, please visit www.ventecclaminates.com.
