KYZEN Partners with Aurotech in the Philippines to Service Local Customers Faster and Better

NASHVILLE – January 18, 2018 — KYZEN just announced the opening of a new state-of-the-art Applications Lab by its Philippine Distributor, Aurotech. The Lab assists KYZEN customers with smaller-scale cleaning evaluations.

After joining the KYZEN team in June 2017, Aurotech has proven to be a valuable partner, supporting KYZEN customers locally. The installation of the new cleaning Applications Laboratory allows Aurotech to conduct small-scale cleaning evaluations as well as NVR and compatibility testing in 2-3 days. Among other services, enhancements include a Mettler Toledo HC103 Moisture Analyser, a tabletop Branson Ultrasonic Cleaner, a Nikon L150 Microscope and an Oakton Con6 conductivity meter.

“We are excited to have Aurotech on KYZEN’s team,” said Ronnie Teoh, KYZEN’s Sales Manager for South East Asia. “Not only do they bring deep industry experience, and process knowledge, Aurotech assists in proving process parameters and delivering the world-class customer service for which KYZEN is renowned.”

AUROTECH is a Philippine-based company in the semiconductor and electronics industry providing high-end production, marketing and distribution of equipment and materials, as well as a complete range of Technical Support Services including Spare Parts and Consumables, Troubleshooting Repair and Maintenance, Technical Training and Engineering Support for Product Applications. For more information about Aurotech, visit www.aurotech.com.

KYZEN is a worldwide leading supplier of precision cleaning chemistries to the electronics, metal finishing, medical, semiconductor, and optical industries. The company connects leading science with care to create the most effective cleaning solutions for each customer’s unique manufacturing process or problem. This new agreement will strengthen the company’s presence in the state of Florida. For more information about KYZEN, visit www.kyzen.com.
