### **KYZEN Sponsors Women's Connection Reception during SMTA International**

**NASHVILLE — October 2018** — KYZEN is proud to announce that it is sponsoring the Women's Connection Reception to be held at SMTA International on Monday, Oct. 15, 2018 at 5 p.m. at the Donald E. Stephens Convention Center. This is the sixth consecutive year that KYZEN has sponsored this event in support of women in science.

This free event has grown over the years to include all female leaders in the electronic manufacturing industry across all professional positions, from engineers, to production, to marketing and administrative. It started very simply as an event where women in electronics could get together, network and share experiences in an informal and enjoyable way.

This year, everyone is invited to get inspired by speakers from Celestica, Rochester Institute of Technology, Ross Consulting, Plexus and more. This will be held on Monday afternoon from 1:30-3 p.m. A panel discussion will follow at 3:30 p.m. where panelists will share their unique stories on what motivated them to choose a career in engineering, mentorship and their contributions in advancing careers of women.

All women in the electronics manufacturing industry are invited and encouraged to come and enjoy this special reception. Socialize with peers, be inspired by their experiences and expertise navigating this male-dominated industry, and have some fun.

For more information about the event, visit [www.smta.org/smtai](http://www.smta.org/smtai).

#### **About KYZEN**

KYZEN is a global leader in providing environmentally responsible, RoHS compliant precision cleaning chemistries for industries ranging from electronics and advanced packaging to metal finishing and aerospace applications. Since its founding in 1990, KYZEN's innovative cleaning technologies, scientific expertise and customer support have been repeatedly recognized with the industry's most prestigious awards. For more information, visit [www.KYZEN.com](http://www.KYZEN.com).

#### **About SMTA - A Global Association Working at a Local Level**

The SMTA membership is an international network of professionals who build skills, share practical experience and develop solutions in electronic assembly technologies, including microsystems, emerging technologies, and related business operations.
