KYZEN Wins 6th Award for New Stable and Predictable Cleaning Solution at productronica

NASHVILLE — November 2019 — KYZEN, the global leader in innovative environmentally friendly cleaning chemistries, announces that it was awarded a 2019 Global Technology Award in the category of Cleaning Materials for its AQUANOX® A4727 Next Generation Aqueous Assembly Cleaner. The award was presented to the company during a Tuesday, Nov. 12, 2019 ceremony that took place during productronica in Munich, Germany. This is the sixth award the company has received for AQUANOX A4727 since its introduction last year.

“The word ‘KYZEN’ means to continuously improve, and that’s exactly what we have done here with AQUANOX A4727,” said Tom Forsythe, Executive Vice President of KYZEN. “A4727 sets a new bar, bringing new levels of performance and value to the industry by improving the all important aspect of rinsing, along with very attractive economics. AQUANOX A4727 is enjoying wide acceptance on a global scale in the market today, and this award recognizes why new customers see value in embracing this new technology.”

AQUANOX A4727 is easy to control and cost-effective, and works well in both in-line and batch cleaning systems. Environmentally responsible, AQUANOX A4727 is non-hazardous and biodegradable. It contains no CFCs or HAPs and can be used at low concentrations to effectively remove even the toughest soils, and rinse easily and completely.

AQUANOX A4727 is engineered to be effective, stable and predictable. It is designed for reliable production and assembly operations. The chemistry provides a stable pH and predictable compatibility throughout its long bath life.

This stable chemistry is proven to be compatible on a wide variety of components, coating, labels and equipment.

Premiering in 2005, the Global Technology Awards program is an annual celebration of product excellence in electronics surface mount assembly. Premier products based on the finest examples of creative advancement in technology are chosen by a distinguished panel of industry experts.
