AIM Appoints Daniel Gil as Sales Manager for Tijuana and Baja Regions of Mexico

March 18th, 2020 — Cd. Juarez, Chihuahua, Mexico – AIM Solder, a leading global manufacturer of solder assembly materials for the electronics industry, is pleased to announce the appointment of Daniel Gil to the position of Sales Manager for the Tijuana and Baja regions of Mexico.

With seventeen years of experience in the electronics industry, Daniel brings experience in sales, mechanical design and engineering. Daniel has experience with robotic and automation systems and precision automation. Well-versed in safety and cleaning regulations, as well as process monitoring and management, Daniel has extensive knowledge of solder assembly materials for the electronics industry. Daniel's experience, both in and out of the lab, will further AIM's commitment to our customers in the ever-expanding market of the northeastern region of Mexico.

“Daniel is a welcome addition to our growing sales team,” said Oscar Lopez, AIM's National Sales Manager of Mexico. “With the wealth of knowledge and experience Daniel brings with him, we are confident that he will exceed customer expectations and we look forward to his significant contribution.”

Based in Baja, Daniel may be reached by phone at +52 664 130 08 27 or by email at dgil@aimsolder.com.

About AIM

Headquartered in Montreal, Canada, AIM Solder is a leading global manufacturer of assembly materials for the electronics industry with manufacturing, distribution and support facilities located throughout the world. AIM produces advanced solder products such as solder paste, liquid flux, cored wire, bar solder, epoxies, lead-free and halogen-free solder products, and specialty alloys such as indium and gold for a broad range of industries. A recipient of many prestigious SMT industry awards, AIM is strongly committed to innovative research and development of product and process improvement as well as providing customers with superior technical support, service and training. For more information about AIM's complete line of advanced solder products and global technical services, please visit www.aimsolder.com.
