### **AIM Appoints Thomas Lai as Regional Sales Manager for South China**

**December 11<sup>th</sup>, 2018 — Cranston, Rhode Island USA** – AIM Solder, a leading global manufacturer of solder assembly materials for the electronics industry, is pleased to announce the appointment of Thomas Lai to the position of Regional Sales Manager for South China. Thomas will promote AIM’s full line of solder assembly materials to the company’s rapidly expanding customer base in China.

Thomas Lai is a degreed engineer with over four years of experience in the consumer electronics industry. He has excelled in a wide range of roles including sales, business development, project management and key account management. While responsible for sales in South China, Thomas’s focus on business development will allow him to provide the best service possible to customers.

“We are excited for Thomas to join our global sales team,” said David Suraski, AIM’s Executive Vice President, Assembly Materials Division. “China is a very important, expanding market for us. I am confident that Thomas’s expertise will be a great addition to AIM’s sales and support network that is already in place.”

Based in Shenzhen, Thomas may be reached by phone at +86 755 29936487 or by email at [tlai@aimsolder.com](mailto:tlai@aimsolder.com).

#### **About AIM**

Headquartered in Montreal, Canada, AIM Solder is a leading global manufacturer of assembly materials for the electronics industry with manufacturing, distribution and support facilities located throughout the world. AIM produces advanced solder products such as solder paste, liquid flux, cored wire, bar solder, epoxies, lead-free and halogen-free solder products, and specialty alloys such as indium and gold for a broad range of industries. A recipient of many prestigious SMT industry awards, AIM is strongly committed to innovative research and development of product and process improvement as well as providing customers with superior technical support, service and training. For more information about AIM’s complete line of advanced solder products and global technical services, please visit [www.aimsolder.com](http://www.aimsolder.com).
