AIM's Derek Wang to Present at the SMTA China East Vendor Conference on April 26th, 2017

April 14th, 2017 — Cranston, Rhode Island USA — AIM Solder, a leading global manufacturer of solder assembly materials for the electronics industry, is pleased to announce that Derek Wang, Technical Support Manager, will present at the SMTA China East Vendor Conference on April 26th, 2017 at the Shanghai World Expo Exhibition & Convention Center in Shanghai, China.

Derek's presentation, scheduled for Wednesday, April 26th, 2017 from 11-11:25 AM, will highlight AIM's REL61™, a low-cost, high reliability alternative to SAC305 and low-/no-silver alloys. REL61 addresses the most challenging issues with today's common lead-free alloys, specifically voiding, cost, durability and tin whiskers. Combined with AIM M8 Solder Paste, REL61 has reduced voiding on BTC packages by over 45%, increasing both thermal performance and solder joint integrity. Extensive testing indicates that REL61 can reduce tin whisker formation as well as outperform SAC alloys in thermal shock, vibration and drop shock resistance. Additionally, it will highlight key characteristics of AIM's newly developed REL22™ solder alloy for extremely harsh environments.

Derek Wang is a Technical Support Manager for AIM Solder. He is a SMTA Certified Engineer and also serves as a SMT Processes Trainer. With over thirteen years' experience in the SMT industry, Derek supports AIM customers in Eastern China.

About AIM

Headquartered in Montreal, Canada, AIM Solder is a leading global manufacturer of assembly materials for the electronics industry with manufacturing, distribution and support facilities located throughout the world. AIM produces advanced solder products such as solder paste, liquid flux, cored wire, bar solder, epoxies, lead-free and halogen-free solder products, preforms, and specialty alloys such as indium and gold for a broad range of industries. A recipient of many prestigious SMT industry awards, AIM is strongly committed to innovative research and development of product and process improvement as well as providing customers with superior technical support, service and training. For more information about AIM, visit www.aimsolder.com.

Upcoming Events:

May 2, 2017 – SMTA Wisconsin – Milwaukee, WI

May 11, 2017 – SMTA Michigan – Grand Rapids, MI

May 16, 2017 – SMTA Carolinas – Greensboro, NC
