ATS Announces Live Webinars on Thermal Management of Electronics

July 11, 2018 – NORWOOD, Mass. - Advanced Thermal Solutions, Inc. (ATS), a leading-edge thermal engineering and manufacturing company focused on the thermal management of electronics, is pleased to announce a series of monthly, online webinars covering different aspects of the thermal management of electronics.

The hour-long, live webinars will be presented by Kaveh Azar, Ph.D., the co-founder, president, and CEO of ATS and a world-renowned expert with more than four decades of experience in the thermal management of electronics.

The first webinar will be presented on Thursday, July 26 at 1:00 p.m. The first topic will be “Electronics Cooling Fundamentals (The Basics of Electronics Cooling)” and will review the fundamentals of thermal management. Other topics to be presented over the course of 10 weeks include thermal modeling, designing cold plates for liquid cooling, heat pipes and vapor chambers, and more.

This series will be perfect for experienced engineers as well as those just starting out in the industry. Each session will be followed by a question-and-answer period for engineers to ask Dr. Azar specific questions related to the topics.

The full list of webinars and their respective dates is as follows:

Thursday, July 26 - Electronics Cooling Fundamentals (The Basics of Electronics Cooling)

Thursday, August 23 – Thermal Modeling Approaches and Principles

Thursday, September 27 – Stump the Engineer Live

Thursday, October 25 - Selecting and Designing Liquid Cold Plates for Deployment in Electronic Systems

Thursday, November 29 – Heat Pipes and Vapor Chambers in Heat Transfer

Thursday, December 20 – Stump the Engineer Live II

Thursday, January 17 – Methodologies for Fan Characterization and Deployment

Thursday, February 21 – Air Cooling: Heat Sink Design and Selection

Thursday, March 21 – Thermal Management of Battery Packs

Each of the webinars will be presented live through GoToMeeting. For full descriptions of each of these webinar topics or to register for the upcoming webinar, visit <https://qats.com/Training/Webinars>.

About Advanced Thermal Solutions

Advanced Thermal Solutions, Inc. (ATS) is a leading engineering and manufacturing company supplying complete thermal and mechanical packaging solutions, from analysis and testing to final production. ATS provides air and liquid cooling solutions and laboratory-quality thermal instrumentation, as well as thermal design consulting services and training. For more information about ATS, visit <https://www.qats.com> or email ats-hq@qats.com.
