FOR IMMEDIATE RELEASE

COT Announces PB Swiss Tools' Two New INSIDER Models: INSIDER STUBBY and INSIDER STUBBY RATCHET

GAINESVILLE, GA — September 2017 — Count On Tools, Inc. (COT), a leading provider of precision components and SMT spare parts, is pleased to announce that PB Swiss Tools recently added two new models to their popular INSIDER product line: The INSIDER STUBBY and INSIDER STUBBY RATCHET. The PB Swiss Tools' INSIDER STUBBY is the little pocket tool for rapid screw driving.

The PB Swiss Tools' INSIDER STUBBY comes standard with six common PrecisionBits for universal application (flat/slotted, Philips, and Torx®). It is ideal for locations that are difficult to access, while offering high hand torques without effort and its design remains compact and space-saving.

The new INSIDER STUBBY RATCHET with integrated ratchet function on the short SwissGrip handle makes it possible to carry out screwdriving in difficult to reach places and, at the same time, it can be used for rapid turning. Because it can be used with one hand and is reversible, this little pocket tool will never fail you.

Both versions feature the SwissGrip handle, which is made of Santoprene®, making it possible to generate a large amount of torque, even with wet hands. The compact, short SwissGrip handle is ideal for screw fastening at difficult to access locations. The STUBBY with bit holder offers even more than its predecessor – a ¼" PrecisionBit magazine extendable from within the handle so it remains safely connected with the handle when it is opened.

With more than 130 years of experience, PB Swiss Tools is a global leader of hand tools manufactured for use in the industrial marketplace, even for the most hazardous jobs. All PB Swiss Tools are 100 percent Swiss-made and come with an unlimited lifetime guarantee. Work with the best!
