## Circuitronics Receives 2019 Global Technology Award

**IRVING, TX — November 2019 —** [Circuitronics](http://www.circuitronics.com), a leading supplier of customized manufacturing services and solutions for the energy, industrial, communications and mil-aero markets, announces that it was awarded a 2019 Global Technology Award in the category of Contract services \$25-50 million. The award was presented to the company during a Tuesday, November 12, 2019 ceremony that took place during productronica in Munich, Germany.

“We’re excited about the recognition of our work by the Global Technology Awards committee,” stated Harsha Deivanayagam, Sr. Director of Business Development. “It takes an enormous effort from our employees to meet the rapidly changing requirements our customer base is confronted with daily in their respective industries and this award is a result of that – we can’t wait to share the award with the team!”

Technology and markets continue to evolve and change, and Circuitronics continues to lead the way with fast, flexible solutions for the challenges its customers face. By supporting time-to-market demands with 1-10-day prototypes and delivering custom solutions that meet the quality and service requirements of some of the most demanding markets, Circuitronics is the advanced solution that you can count on.

Premiering in 2005, the Global Technology Awards program is an annual celebration of product excellence in electronics surface mount assembly. Premier products based on the finest examples of creative advancement in technology are chosen by a distinguished panel of industry experts.

Circuitronics is certified to ISO 9001:2008, IPC J-STD-001 and IPC A-610, as well as ITAR registered. For more information, visit [www.circuitronics.com](http://www.circuitronics.com).
