### **Cirtronics to Highlight How Precision Engagement® Manufacturing Accelerates Innovation at BIOMEDevice Show in Boston, MA**

**Summary:** Cirtronics, an experienced Medtech contract manufacturer located in Southern New Hampshire, will be exhibiting at the upcoming BIOMEDevice show in Boston, highlighting how Precision Engagement® accelerates innovation by tailoring manufacturing services to meet the needs of complex and Medtech devices.

#### **Milford, NH—**

Cirtronics, an experienced contract manufacturer located in southern New Hampshire, will be exhibiting at BIOMEDevice (<https://biomedevice.mddionline.com/>) in Boston, MA, April 18-19, 2018, booth# 857. Cirtronics will be highlighting how Precision Engagement® benefits Medtech companies looking to accelerate innovation by aligning manufacturing processes and related information systems with their product and market requirements. This simplifies the transition from design to manufacturing, freeing up design time for product innovation. As a contract manufacturer with deep experience and broad expertise in manufacturing complex products with rigorous quality requirements, Cirtronics can even assist customers in navigating FDA procedures and requirements.

#### **Cirtronics Offers Mechanical Assembly and Complex Manufacturing**

“At Cirtronics, we tailor our capabilities, services and communication to each customer’s specific needs based on their product and goals—this is Precision Engagement®”, says **David Patterson, Chief Operating Officer, Cirtronics Corporation**. “We are not a typical manufacturer. We bring our customers the benefit of our previous successful experiences so that we can support them as they navigate the complex and time consuming approval process required for medical devices.”

**Patterson** continues, “More than half of our business is building complex systems. We are FDA registered, and understand how important details and documentation are to our customers’ success. We are both proactive- in how we prepare for manufacturing—and responsive in how

we navigate changes. Our vested and empowered workforce is dedicated to meeting our customers' goals.”

Combining leading edge technical capabilities with proactive and collaborative customer relationships through Precision Engagement®, Cirtronics is in the business of building confidence as well as products.

###

Cirtronics is a Boston-Area contract manufacturer for electronics, electro-mechanical assemblies and box builds for a wide range of quality-sensitive markets including medtech, robotics, communications, aerospace, military, security and industrial. Cirtronics is an Employee Owned Company (ESOP) that qualifies for US government woman-owned and small business status, is FDA Registered, and ISO 13485 Certified.
