### **Cirtronics to Highlight Box Build Capabilities at BIOMEDevice Show in Boston, MA**

**Summary:** Cirtronics, a local and experienced Medtech contract manufacturer, will be at BIOMEDevice highlighting how Precision Engagement® can help bring innovative products to market.

**Milford, NH, April, 20, 2017—**

Cirtronics, an experienced Precision Engagement® contract manufacturer located in southern New Hampshire, will be exhibiting at BIOMEDevice in Boston, MA, May 3-4, 2017. Cirtronics will be highlighting how Precision Engagement® benefits Medtech companies looking to bring their innovative products to the marketplace.

Precision Engagement® is an integrated experience of purposeful, proactive, communication and support, enabling seamless project evolution from design reviews and document control, to production and testing, to aftermarket support and fulfillment. At each step, all services and capabilities are tailored specifically to meet the needs of each customer to help them bring their product successfully to market.

#### **Cirtronics Offers Mechanical Assembly and Complex Manufacturing**

“At Cirtronics, more than half of our current business is building systems”, says **David Patterson, Chief Operating Officer, Cirtronics Corporation**. “We approach box builds with the same attention to detail that we provide every project, from the smallest boards to the largest assemblies. We tailor our capabilities, services and communication to each customer’s specific needs based on their project and goals—we call this Precision Engagement®”.

**Patterson** continues, “And we are not just a manufacturer. As an experienced system manufacturer with ISO 13485 and FDA registration, we are very familiar with the requirements and processes necessary to successfully navigate the complex and time consuming approval process. We understand what it takes, and we are ready to share our insight and best practices with our customers.”

Combining leading edge technical capabilities with proactive and collaborative customer relationships through Precision Engagement®, Cirtronics is in the business of building confidence as well as products.

###

Cirtronics is a locally owned and operated, contract manufacturer for electronics, electro-mechanical assemblies and box builds for a wide range of markets including medtech, robotics, communications, aerospace, military, security and industrial. Cirtronics is an Employee Owned Company (ESOP) that qualifies for US government woman-owned and small business status and is FDA Registered, and ISO 13485 Certified.
