**SMTAI Booth #228**

### **Conecsus Offers SMT Metals Waste Recycling Solutions at SMTAI 2019**

Terrell, Texas, USA -- Conecsus, LLC, an innovative environmental technology and recycling company, will be an exhibitor at the SMTA International 2019 Conference and Exhibition, September 24-25, 2019 in booth #228 at the Donald Stephens Convention Center in Rosemont, Illinois. Conecsus' representatives will illustrate how the company processes wastes containing primarily Tin, Tin-Zinc, Lead, Silver, Gold, and Copper, and converts them into usable metal products for sale into the global market.

Conecsus will be co-located in booth #228 with Amerway, Inc., a domestic manufacturer and provider of a wide range of soldering alloys and bar and wire solder products. Together, Conecsus and Amerway offer customers a 'cradle to grave' solution ranging from high-purity soldering alloys to waste recycling solutions for dross and other metals waste by-products from the SMT/PCB assembly process. Amerway, Inc. is located in Altoona, Pennsylvania, USA.

Conecsus' Tom Mitchell, North American Business Manager, will illustrate how Conecsus' recycling technology benefits the SMT/PCB electronics manufacturer and how it represents a new way of dealing with metals-contaminated waste in an increasingly environmentally-conscious manufacturing world. "Using patented, advanced recycling technologies, Conecsus keeps its customers compliant with local, state, and federal regulations while decreasing their carbon footprint and reportable waste streams," Mitchell says.

#### **About Conecsus**

Founded in 1980, Conecsus, LLC is a sophisticated 'green' recycler and refiner of SMT solder/solder paste wastes and residues, as well as Tin, Tin-Zinc, Lead, Silver, Gold, and Copper from a variety of manufacturing industries. Located in Terrell, Texas, USA, Conecsus converts these wastes into usable metal products. Conecsus' mission is to provide innovative and high-quality industrial byproducts management, metal recovery, and recycling options that provide world-class value and service to our customers, and display respect and stewardship toward the environment. For more information, visit [www.conecsusllc.com](http://www.conecsusllc.com).
