Comtree to discuss Ersa rework and reflow systems at EPTECH Calgary

Plymouth, WI — March 2019 — Kurtz Ersa Inc., a leading supplier of electronics production equipment, is pleased to announce that it will exhibit with Comtree at EPTECH Calgary, scheduled to take place Tuesday, April 16, 2019 at the Best Western Premier Calgary Plaza Hotel in Calgary, AB. Comtree representatives will discuss Ersa's rework and reflow equipment during the event.

For more than 15 years, thousands of users worldwide have benefited from Ersa's patented IR rework technology. In addition to offering outstanding cost/price ratio, Ersa systems have established their position in the market because they continue to deliver the best results on the most challenging rework applications. The company will demonstrate some of its rework and hand soldering tools at the show.

Since their introduction into the market nearly 30 years ago, Ersa reflow ovens have been setting the industry standard for high-end reflow machines. The current HOTFLOW series marks the benchmark - with 25 percent savings in total energy and 20 percent reduced N₂ consumption. The flagship Ersa HOTFLOW 4/26 provides 26 zones and a process length of more than 7 meters. The smallest reflow oven - the HOTFLOW 4/8 - achieves eight zones and 3.26 meter process length.

Comtree is Ersa's exclusive representative in Canada. For more information about Comtree, e-mail Ernesto Provenzano at ernesto@comtreeinc.com, Graham Gibson P.Eng. at graham@comtreeinc.com, or call 905 673-7777.
