Express Manufacturing, Inc. (EMI) Named In Top 10 Best EMS Provider Facilities in USA West -2016

SANTA ANA, California – Express Manufacturing, Incorporated (EMI) is pleased to announce that it has again been named one of the top 10 Best Electronics Manufacturing Services (EMS) Provider Facilities in the USA West by Venture Outsource. The ranking was based on a Venture Outsource primary survey of electronics solutions peers in the EMS Industry to identify those EMS providers in the West who distinguish themselves in the services provided to OEM within the region. The area defined is Alaska, California, Hawaii, Idaho, Montana, Nevada, Oregon, Utah, Washington and Wyoming. In its description of the criteria, Venture Outsourcess emphasizes quality control, program management, access to a technical work force, as well as manufacturing mix capability as critical criteria to being a premier EMS.

With Corporate offices in Santa Ana, CA and fully owned offshore facilities, EMI is well positioned to support the manufacturing needs of OEMs worldwide. EMI is well established in providing quality across telecommunications, aerospace, medical devices, semi-conductor and other specific industries. It is experience like this over the last 30-years that has established EMI as a market leader.

About Express Manufacturing, Inc.

Founded in 1982, Express Manufacturing, Inc. is an AS9100, ISO 9001:2008 and ISO 13485:2003 certified provider of high-mix, medium-to-high volume printed circuit board assembly and system integration. Complete vertical integration – from specialized Engineering Services (such as printed circuit board layout, proto-typing and test development) to Supply Chain Management, Manufacturing, Fulfilment Programs and Service and Refurbishment Depot Services – allows EMI to capture efficiencies, maintain cost advantages and deliver turnkey and box-build solutions to its customer base. Because of the depth of services EMI offers, customers are often able to reduce the number of steps from design to production, thereby minimizing cost and time to market while capturing market share and maximizing profit.
