**Attend the IEW – for Stimulating Discussions on ESD with Colleagues from Around the World!**

Register today for the 12th Annual International Electrostatic Workshop (IEW) being held May 14-18, 2018 at the Priorij Corsendonk, Oud Turnhout, Belgium.

Register online at: <https://esda.org/events/iew/>

The IEW facilitates access to and interactions with industry leaders through invited seminars, technical sessions, special interest groups (SIGs), discussion groups (DGs), and invited speakers. This year we focus on The Intersection of ESD Challenges for Emerging/Advancing Technologies and Markets; IC Designer's Perspective on ESD; and Everything EOS – Product, Failure Analysis, Reliability, Verification, and Test Engineers.

Participating at the IEW will provide:

- An immersive, interactive experience with experts on technical advancements
- All-inclusive pricing – workshop, hotel, and meals
- Peer reviewed poster format for future full paper development
- Gain valuable industry recognition and receive feedback
- Interactive and in-depth discussion groups

A highly rewarding and engaging experience for all! Whether you are new to EOS/ESD, or an old hand at it; join us at IEW 2018 to learn in an informal, interactive, and friendly atmosphere.

Visit [www.esda.org/iew.htm](http://www.esda.org/iew.htm) for additional details about the program and to register for the event.

Founded in 1982, EOS/ESD Association, Inc. is a not-for-profit, professional organization directed by volunteers dedicated to furthering the technology and understanding of electrostatic discharge. EOS/ESD Association, Inc. sponsors education programs, develops ESD standards, and holds several annual technical symposia and workshops; all to foster the exchange of technical ESD information among its members and others. **Additional information may be obtained by contacting EOS/ESD Association, Inc., 7900 Turin Rd., Bldg. 3, Rome, NY 13440-2069 USA.
