Inovar Wins 2017 Raytheon EPIC Award for Supplier Excellence

LOGAN, UTAH — July 2017 — Inovar, Inc., a full-service EMS provider, announces that it has been selected as a 2017 Raytheon Supplier Excellence Program EPIC Award winner.

As part of the Raytheon Supplier Excellence Program, Inovar is awarded for outstanding performance, contributions, and support to programs across one or more Raytheon businesses. Key Inovar builds for Raytheon programs include the Paveway, SM2, SM6, Paveway, and AMRAAM. Inovar is one of only 33 suppliers that has been selected to receive an EPIC Award this year for overall excellence in performance, innovation and collaboration.

Inovar is a manufacturing company that supplies products, engineering and support services to the global aerospace and defense industry. It manufactures electronic assemblies and subassemblies for a wide variety of commercial, medical, military, and space aircraft. Inovar also provides engineering and program management services to the United States military, Homeland Security, NASA and other government agencies.

The award ceremony took place on July 11 at Inovar's Logan facility. In addition to Inovar team members and Raytheon executives, state and local dignitaries will attend the ceremony and receive a tour of the company's Logan facility. In attendance was Keith Morey, VP Business Development for the State of Utah, Val Potter from the Utah House of Representative, Logan City Mayor Craig Peterson, as well as several members of the Logan City Council.

"We are honored that Raytheon has selected Inovar to receive the EPIC Supplier award. This award is a reflection of the consistency and dedication that our team members adhere to as they strive to deliver quality products on time," said Craig Rupp, Inovar's President. "Inovar is committed to maintaining the highest level of operational execution for programs that support our war fighters. We are proud of the impact that our products have on our country's national security."

The Supplier Excellence Program supports Raytheon's strategic sourcing, which enables enhanced engagement and communication; quantitative and qualitative measurement of supplier performance; and recognition and rewards for top performers who contribute to both customer and Raytheon success.

Additional information about Raytheon's strategic sourcing process and the Supplier Excellence Program can be found at www.raytheon.com/suppliers.
