

Webinar Wednesday:
**The Value of a UV Laser for Your PCB
Manufacturing Process**
with Mirela Orłowski

Wednesday August 31st at 9:30AM PDT

As the industry is going towards miniaturization and complex contours, the need for accuracy and precision is more important than ever, which is uniquely provided with a UV laser. This webinar will focus on the versatility of the aptly nicknamed "Swiss army knife", as well as discuss the benefits and myths associated with UV laser processing.

Join us next Wednesday, August 31st at 9:30AM PDT for a webinar on the value of a UV laser for your PCB manufacturing process.

Title: The Value of a UV Laser for Your PCB Manufacturing Process
Date: Wednesday August 31st
