## Charles Swanson Appointed to Sr. Test/Manufacturing/ Quality Engineer at Libra Industries

**MENTOR, OH — June 2018** — Libra Industries, a privately held electronics manufacturing services (EMS) provider, is pleased to announce the promotion of Charles Swanson to the position of Sr. Test/Manufacturing/Quality Engineer. In his new role, Swanson will be training in multiple departments and will report to the company's Quality Manager, Mike Lynch.

Swanson joined Libra Industries more than 12 years ago and has held various positions at the company, from selective and wave operator, 2nd shift supervisor and currently is a manufacturing engineer.

Swanson is a graduate of DeVry University where he received a Bachelor's degree in Applied Science Electronics and Computer Technology/Technical management with a concentration in Controls. Additionally, he is a SMTA Certified Surface mount Technology Process Engineer (CSMTPE) and received his Six Sigma Green Belt from the University of Akron.

Libra Industries continues to invest to provide customized manufacturing solutions to help make its customers more competitive and improve their profitability. For more information, visit [www.libraind.com](http://www.libraind.com).

### About Libra Industries

Libra Industries is a leading provider of integrated Electronic Manufacturing Services (EMS), serving OEMs with complex or technologically sophisticated manufacturing requirements in a broad range of industries including industrial automation, medical, military and aerospace, instrumentation and LED lighting. Four world-class manufacturing facilities allow Libra Industries to provide customers with manufacturing flexibility including complete system build, module and subassembly production, as well as simple to complex PC board assembly. With an ongoing commitment to investment in people, quality systems, and the latest manufacturing equipment and processes, Libra Industries is committed to managing their clients' products from initial design and prototype to full production; assisting their clients in their efforts to improve time to market, reduce total systems cost, and increase quality.
