## Libra Industries Quality & Manufacturing Managers Achieve Lean Six Sigma Black Belt Certification

**MENTOR, OH — January 2020** — Libra Industries, a privately held electronics manufacturing services (EMS) provider, is pleased to announce that Cory McMaster, Manufacturing Manager and Glenn Watson, Quality Manager have recently received their Lean Six Sigma Black Belt Certification. As professionals, they can now explain Six Sigma philosophies and principles, including supporting systems and tools. As Black Belts, they have a thorough understanding of all aspects of the define, measure, analyze, improve and control (DMAIC) model in accordance with Six Sigma principles.

“I am excited to have both Cory and Glenn implement their knowledge base of Six Sigma practices at our Dallas Facility,” said Steve Schwaebler, Vice President of Operations – Dallas. “Their commitment to process improvement and waste reduction should have a significant impact on quality and on-time delivery as we enter 2020.”

Libra Industries continues to invest to provide customized manufacturing solutions to help make its customers more competitive and improve their profitability. For more information, visit [www.libraind.com](http://www.libraind.com).

### About Libra Industries

Libra Industries is a leading provider of integrated Electronic Manufacturing Services (EMS), serving OEMs with complex or technologically sophisticated manufacturing requirements in a broad range of industries including industrial automation, medical, military and aerospace, instrumentation and LED lighting. Four world-class manufacturing facilities allow Libra Industries to provide customers with manufacturing flexibility including complete system build, module and subassembly production, as well as simple to complex PC board assembly. With an ongoing commitment to investment in people, quality systems, and the latest manufacturing equipment and processes, Libra Industries is committed to managing their clients' products from initial design and prototype to full production; assisting their clients in their efforts to improve time to market, reduce total systems cost, and increase quality.
