MIRTEC Receives the 2019 Global Technology Award for Their Revolutionary TRMS® Industry 4.0 Solution During Productronica 2019

November 2019 – MIRTEC, 'The Global Leader in Inspection Technology', announces that it was awarded a 2019 Global Technology Award in the category of Best Product – North America for its revolutionary Total Remote Management System (TRMS). The award was presented to the company during a Tuesday, Nov. 12, 2019 ceremony that took place during Productronica in Munich, Germany. MIRTEC has collaborated with Cogiscan on a fully integrated Industry 4.0 Solution that displays data collected from MIRTEC's award-winning AOI and SPI systems as well as all other equipment in the SMT manufacturing line.

FEATURES

Remote Access Control

- Remotely Control each machine within the manufacturing line over a network without impacting operation.

Monitor Status of Machine

- Real-time monitoring of machine status and production yield.

Monitor Resource Usage of PC

- Real-time monitoring of resource usage such as CPU, memory, HDD free space etc.

Mobile Device Support

- Monitors multiple machines from mobile devices.

Multi-line Support

- Manages multiple machines over multiple lines.

Minimize Human Resources

- One operator can remotely control multiple lines.

"The TRMS Module is a key part of MIRTEC's Intelligent Factory Automation System (INTELLISYS®), stated Brian D'Amico, president of MIRTEC's North American Sales and Service Division. "This powerful software suite was designed and developed by to provide manufacturers with a clear view into the manufacturing process, thereby helping them achieve higher operating efficiencies and improved quality. It is an honor to accept this award on behalf of both MIRTEC and Cogiscan for the design and development of this Leading Edge Industry 4.0 Solution."

Premiering in 2005, the Global Technology Awards program is an annual celebration of product excellence in electronics surface mount assembly. Premier products based on the finest examples of creative advancement in technology are chosen by a distinguished panel of industry experts.
