JBC Tools Signs Exclusive Representative Agreement with Southwest Systems Technology, Inc.

DALLAS, TX — March 2019 — [Southwest Systems Technology, Inc.](http://SouthwestSystemsTechnology.com), the leading manufacturing resource for the Southwest, today announced that it has signed a representative agreement with [JBC Tools](http://JBCTools.com). Under the agreement, Southwest Systems is the exclusive manufacturers' representative for JBC in the states of Texas, Oklahoma, Arkansas and Louisiana. Southwest Systems now provides sales and services for JBC's line of soldering and rework equipment.

"Innovation, efficiency and reliability are the key features of JBC products, which have been designed to satisfy the most demanding requirements in the market," stated Matteo Alberti, Global Sales Coordinator, JBC Tools, Inc. "As JBC is quality-driven, I feel very confident knowing that we are going to be represented by the professional team at Southwest Systems Technology."

In its 30th year, Southwest Systems Technology, Inc. has offices in Texas and Mexico, serving the electronic and semiconductor manufacturing industries. The company will highlight industry-leading capital equipment, benchtop tools and manufacturing consumables.

"In my years as an EMS owner I have always been drawn to the higher technology equipment, that is what caught my eye with JBC Tool's products," stated Scott Fillebrown, Managing Director at Southwest Systems Technology. "This is the soldering station I would want in my facility and I feel confident our customers will agree."
