## Sono-Tek Corporation Announces the Appointment of a New VP, Sales & Marketing

**Milton, NY — March 2018 — Sono-Tek Corporation** (OTC BB: SOTK) is pleased to announce the promotion of Bennett Brunttil to VP, Sales & Marketing. Brunttil began his career at Sono-Tek as a Regional Sales Manager in 2007 and served as Marketing Brand Manager for Sono-Tek's Electronics & Advanced Energy Division from 2013. In March 2016, he assumed the position of Director of Electronics & Advanced Energy, overseeing sales, marketing and new product development efforts worldwide.

Effective March of 2018, Brunttil has taken on the role of VP, Sales and Marketing for both the Electronics & Advanced Energy division and the Ultrasonic Coating Solutions division. His sales and technical experience with applications including manufacturing of semiconductors (photolithography), printed circuit boards, fuel cells, solar cells, advanced batteries and nanotechnology applications, combined with experience in banking and finance, have positioned him perfectly for this new role.

"In his 10+ years at Sono-Tek, Bennett has filled a number of key roles in sales and management, with hands on experience in branding and product development as well," said Steve Harshbarger, Sono-Tek's President. "His ability to successfully implement strategies and manage a diverse product line made him the obvious choice for Vice President."

### About Sono-Tek Corporation

Sono-Tek is the world leader in the development and application of liquid ultrasonic atomization technology into nozzle systems and spraying and coating application systems. Compared to conventional pressure spraying methods, the company's ultrasonic nozzles do not clog, reduce liquid usage, waste, and environmental impact while achieving much more precise, uniform, thin film coatings. Sono-Tek is continually developing new applications for its unique technology, replacing wasteful practices in a world that is growing ever more environmentally sensitive.
