FOR IMMEDIATE RELEASE

Specialized Coating Services adds onsite IPC-A-610 Certified IPC Trainer

November 2018 (Fremont CA) – Specialized Coating Services today announced that it has hired Raul Aldaz as the company’s onsite IPC-A-610 Certified IPC Trainer and Quality Manager. The addition of Aldaz demonstrates Specialized Coating Services’ commitment to customer requirements and greatly assists the company’s AS9100/ISO-9001 quality assurance initiatives.

IPC-A-610, *Acceptability of Electronic Assemblies*, is the most widely used standard published by the IPC. With multiple language versions, it has an international reputation as the source for end-product acceptance criteria for consumer and high reliability printed wiring assemblies.

Specialized Coating Services is the industry leader in contract services of conformal coating, encapsulating (potting), sub-assembly and ruggedization of PCBs used in aerospace, automotive, commercial electronics, energy, medical, military, retail and space applications. The company’s conformal coating materials include the latest in urethane, silicone, acrylic, epoxy, parylene and nano technologies.

“We are excited to bring onboard Raul Aldaz as our Certified IPC Trainer and Quality Manager,” stated Rick Ramirez, President/Co-Founder. “He brings us many years of experience and will be an excellent addition to our staff. Our customers, in all Industries, deserve and expect the best in service and quality, and we are committed to meeting their demands.”

About Specialized Coating Services

Specialized Coating Services was founded in 1996 in a garage northeast of Silicon Valley by Rick Ramirez and Kim Atkins. From the beginning, the company was laser focused on the needs of the customer, and that has helped transform Specialized Coating Services into a dynamic, multifaceted conformal coating solutions provider, which now employs over 110 skilled personnel in a 25,000 sq ft state-of-the-art facility in Fremont, CA. Specialized Coating Services has a newly opened 13,000 sq ft second facility in Billerica, MA.
