STEALTH PLIERS

Aven's New Line of Stealth Pliers

Manufactured from a durable, high grade stainless steel alloy, Aven's Stealth Pliers are built to withstand heavy duty use. With seven different models, our Stealth Pliers are suitable for applications that require forming, building and precision assembly.

Screw joint construction ensures precise tip alignment and the sand blasted finish gives these pliers a superior look and feel. Featuring non-slip, ESD safe, ergonomic hand grips that protect against static build up make them easy to handle for all users. The Stealth Pliers also feature dual leaf springs that provide easy opening and closing to reduce hand fatigue during repetitive use.

Aven knows that unique applications require unique tools and our Stealth Pliers are suitable for all precision applications.

For more information, call (734) 973-0099 or click on the links below. The Stealth Pliers can be found chart under the "Precision Pliers" tab in our Pliers & Cutters matrix.
