FOR IMMEDIATE RELEASE

Whizz Systems, Inc. Celebrates 20th Year of Providing Electronics Product Design & Manufacturing

SANTA CLARA, CA — March 2019 — Whizz Systems, Inc., a premier provider of electronics product design, development and manufacturing services, is pleased to announce the company's 20th year in business. Located in the heart of Silicon Valley, Whizz Systems was founded in 1999 by a team of elite engineers who specialized in high-mix, low-volume EMS services.

"It's been a pleasure to have worked with the who's who of the tech industry over the years," stated Muhammad Irfan, President of Whizz Systems. "We have built remarkable relationships, learned a lot, and feel great having contributed to the success of so many clients."

Whizz Systems provides its customers with an efficient path to launching a product by taking an idea and turning that into a workable, shippable product. The company's services are unique in that the company manages the entire process of a product star ting with development all the way to prototypes and manufacturing.

Irfan added, "We remain committed to the success of our customers, our team, and to be the best in our space. We want to thank all our customers for their business and loyalty. We also want to thank all of our team members for having contributed to our success."

Over the last 20 years, Whizz Systems has invested in its engineers with the best technologies and practices to provide the best service and products in the industry. With in-house world-class manufacturing, the company prides itself in being equipped to successfully design, develop and manufacture the products that its customers need in today's rapidly advancing market.

Whizz Systems has the technical expertise, flexibility, competency and scalable capacity to successfully finish your project. Its proven successes with elite companies such as Cisco, Xilinx, HP, Sun, Cavium and more, are testaments to its standard of excellence.

Whether a client has small isolated needs or requires entire product design and development, Whizz Systems is a partner and an extension of its clients resources at any and every step along the journey. For more information, visit www.whizzsystems.com.
