

ADVANCED CIRCUITS™ ANNOUNCES NEW OFFSHORE DIVISION

FOR IMMEDIATE RELEASE – JUNE 19, 2017

AURORA, COLORADO – Advanced Circuits™ creates an offshore PCB sourcing division to meet customers' demand for enhanced pricing flexibility for higher-volume PCB production. The new division integrates a seamless and cost-effective solution for offshore PCB sourcing while strengthening Advanced Circuits'™ "One-Stop Shop" approach to PCB fabrication. With three U.S. based manufacturing facilities, Advanced Circuits™ continues to offer U.S. PCB manufacturing with flexible quick-turn options and advanced capabilities along with in-house prototype assembly services.

"Providing an offshore manufacturing solution for our customers is simply the affirmation of the processes we have built in-house over many years supporting our customers' growing supply-chain needs. Unlike many limited-service broker operations for offshore sourcing, Advanced Circuits Offshore™ provides customers with the full-service support and established quality standards that only Advanced Circuits™ can offer" said John Yacoub, President and CEO of Advanced Circuits™.

About Advanced Circuits™

Since 1989, Advanced Circuits™ has been the leading printed circuit board manufacturer specializing in both Prototype and Production quantities and is ranked in sales volume among the top 3 PCB fabricators in North America. Offering true one-stop convenience and assured quality with in-house fabrication and small-quantity/quick-turn assembly services, Advanced Circuits'™ PCB solutions range from the simplest designs to the most rigorous requirements for the medical, commercial, defense, and aerospace marketplace. Advanced Circuits™ is MIL-PRF-31032, MIL-PRF-55110, AS9100, ISO 9001 Certified, IPC 6012 3/3A, IPC 6018 Class 3 Qualified, and ITAR Registered as well as being DOD contracts ready. The company is well known for its expedited turn time capabilities including Same Day and Weekend turns and its industry best on-time shipping record. An innovator in PCB services, Advanced Circuits™ offers free design for manufacturability (DFM) checks at FreeDFM.com and its popular free PCB layout software "PCB Artist™" at PCBArtist.com.
