### **Nathan Trotter Wins Mexico Technology Award for SAC 305 Solder Bar**

**Coatesville, PA – November 2018** – Nathan Trotter announces that it was awarded a 2018 Mexico Technology Award in the category of Solder Bar for its SAC 305 Solder Bar. The award was presented to the company during a Wednesday, Nov. 14, 2018 ceremony that took place during the SMTA Guadalajara Expo & Tech Forum.

Each lot of solder from Nathan Trotter is carefully treated to remove impurities and oxide. It is then twice-extruded for optimal grain structure and consistency throughout each bar. Nathan Trotter's solder is produced using only the highest quality metals, responsibly sourced through the company's global network of supply. The result is a solder that provides optimal yields, minimal oxidation and superior performance.

Nathan Trotter's standard lead-free alloys include 99C, SAC0307, and SAC305. Legacy solder alloys include Sn63 (63 Sn/37 Pb eutectic), Sn60 (60 Sn/40 Pb), and Sn50 (50 Sn/50 Pb). A catalog of other solder alloys are produced to either customer or industry specifications.

As the largest importer of tin in North America, Nathan Trotter offers industry-best pricing and flexible purchasing programs. Nathan Trotter also offers a leading-edge solder recycling program through its reclaim division, Tin Technology and Refining ([www.tintech.com](http://www.tintech.com)), that provides customers with maximum value for their solder scrap including dross and oxide, pot dumpings, paste and solder debris. Reclaim material can be exchanged for new solder or payment, enabling customers to reduce raw material costs in an environmentally responsible way.

Nathan Trotter is represented in Mexico by 4 warehouses, 9 Sales Managers, and 2 Technical Support Reps to ensure that every customer is fully supported in all aspects of the business.

The Mexico Technology Awards recognize the best new innovations in the electronics manufacturing industry in Mexico. The goal of the award program is to celebrate the companies and people that are achieving the highest standards and driving the industry forward.

For sales, support, or additional information about the acquisition, contact Nathan Trotter & Co. at 610-524-1440 or email [info@nathantritter.com](mailto:info@nathantritter.com).

**About Nathan Trotter & Co.**

Founded in 1789, Nathan Trotter has grown to become the largest tin manufacturer in North America. ISO 9001 certified since 1997, Nathan Trotter currently serves the Automotive, Aerospace, Electronics, Plating, and Chemical industries globally.
