## **Titan Circuits Chooses Nordson SELECT Selective Soldering Equipment**

- **Nordson SELECT Cerno® 103IL features advanced process controls with dual solder nozzles greatly expanding selective soldering flexibility**

**Liberty Lake, WA, USA – 21 July 2020** – Nordson SELECT, a Nordson company (NASDAQ: NDSN), is pleased to announce that Titan Circuits has purchased and installed a Cerno® 103IL selective soldering system in its Phoenix, Arizona facility.

Frank Insana, Production Manager of Titan Circuits commented, “After reviewing other systems on the market it was an easy decision to make. The combination of overall capability and the dual solder nozzles soon made the Cerno® 103IL system the solution we were looking for.” Insana added, “This system allows us to phase out of wave soldering and provides us with the ability to be more agile and flexible by running dual solder alloys for mission critical through-hole customer applications.”

“We are pleased to advance our relationship with Titan Circuits,” stated Kevin Valentine, the Americas Sales and Service Manager for Nordson SELECT. “The Cerno® 103IL delivers an exceptional combination of versatility, productivity and value with our ease-of-use programming and editing software and will serve Titan Circuits well in their growing marketplace.”

Titan Circuits provides industry leading, state-of-the-art electronics manufacturing services and optimized supply chain solutions including quick-turn, prototype, turnkey, box build, mechanical and full-scale production for companies in a wide range of industries including military/defense, aerospace, medical, automotive, industrial and telecommunications. Headquartered in Phoenix, Arizona, the Titan Circuits facilities are certified to ISO 9001:2015 and AS9100D. For more information, you can visit [www.pcbassembly.com](http://www.pcbassembly.com).

### **About Nordson SELECT**

Nordson SELECT, is a leading worldwide supplier of selective soldering systems including Novo® standalone machines offering exceptional value and superior process capability ideal for batch production, Cerno® in-line systems delivering uncompromised quality and productivity for demanding soldering applications, and Integra® multi-station modular

systems designed to meet the most challenging high-volume requirements by combining parallel processing with multiple soldering nozzles for the ultimate in flexibility and maximum throughput. To find out more, visit [www.nordsonSELECT.com](http://www.nordsonSELECT.com), or on social media.

### **About Nordson Corporation**

Nordson Corporation (Nasdaq: NDSN) is one of the world's leading producers of precision dispensing equipment that applies adhesives, sealants, coatings and other materials to a broad range of consumer and industrial products during manufacturing operations. The company also manufactures equipment used in the testing and inspection of electronic components as well as technology-based systems for curing and surface treatment processes. Headquartered in Westlake, Ohio, Nordson has direct operations and sales support offices in more than 30 countries.
