### **Austin American Technology Modernizes Digital Presence with Clean New Website**

**Austin, TX – February 2021** – Austin American Technology (AAT) is pleased to announce that it has modernized its digital presence by upgrading [www.aat-corp.com](http://www.aat-corp.com). The company has updated the website to the latest technology, just as it has with all AAT industry-leading cleaners for the last 35+ years.

With the new site, AAT has introduced the ability to schedule live virtual demonstrations right from your phone, tablet or computer. Additionally, customers can request service and support online, or order spare parts.

AAT also introduced its new, modern Virtual Demo Room where customers can test and evaluate all of the company's advanced cleaning technology. In addition to testing, AAT's Demo Room has gone fully virtual, conducting Live Video Demonstrations of its industry-leading cleaners to assist clients with virtual installations and maintenance requests using high-definition digital cameras, professional lighting, microphones and videography equipment. With the Virtual Demo Room, the team at AAT has been effectively interacting with current and potential clients more than ever before.

Austin American Technology (AAT) manufactures and builds industrial grade cleaners for the electronics assembly industry. AAT cleaners are design-driven by the science of cleaning. Using modern technology, AAT is the industry's premier leader as a specialized manufacturer of Batch Cleaners, In-Line Cleaners, Solvent Cleaners, Stencil Cleaners, and many more.

Not sure what system you need? Whether putting in a new line or looking to make a purchase, AAT's team of experts are here to help. Just [Ask the Experts](#).

To learn more about any of Austin American's products, visit the new online demo room: <https://www.aat-corp.com/new-aat-demo-room>.

## **About Austin American Technology:**

Austin American Technology is on the forefront of engineering and manufacturing high performance cleaning system for over 35 years, delivering solutions worldwide. AAT was founded in 1986, as a provider of SMT rework systems and process engineering testing services. In 1988, their focus shifted toward the high-end electronics cleaning segment with the introduction of the world's first automated stencil cleaner. In 2000, Austin American Technology became a market leader in inline cleaning systems with the introduction of the award-winning [HydroJet](#)® series. Patented cleaning and drying technologies were incorporated into an energy and space-efficient format to set new standards for performance and low cost of ownership. Building on this success, AAT introduced the [MicroJet](#)® inline flip chip cleaner to provide high volume cleaning capability in a small footprint. In 2013 AAT introduced the world's smallest most efficient inline cleaner, the [NanoJet](#)®.
