FOR IMMEDIATE RELEASE

Absolute EMS Is a Two-Time Service Excellence Award Winner

SANTA CLARA, CA — October 2024 — Absolute EMS, Inc., a six-time award-winning EMS provider of fast turnaround, turnkey contract electronic manufacturing services (EMS), is pleased to announce that it has won a 2024 Service Excellence Award (SEA) in the category of EMS \$20-\$100 Million. This marks the company's second time winning this prestigious award, which was presented at ceremony on Tuesday, October 22, 2024 at SMTA International.

The award was presented to Jayne Carthy, VP of Sales and Marketing at Absolute EMS, by Mike Buetow, President of the Printed Circuit Engineering Association (PCEA). The Service Excellence Awards, sponsored by CIRCUITS ASSEMBLY, are the only industry awards determined solely by direct customer feedback. The SEAs recognize exceptional customer service in areas such as dependability, timely delivery, ease of use, manufacturing quality, responsiveness, technology and overall value.

Absolute EMS, headquartered in Silicon Valley, continues to lead the way in high-reliability contract manufacturing for the medical, military, and satellite industries. With certifications including ISO 13485:2016, AS9100 Rev D, and ISO 9001:2015, the company is known for its cutting-edge technology and stringent manufacturing standards such as IPC-A-610 Class 3 and J-STD-001 Class 3. Absolute EMS is also UL Registered and operates under NAICS: 334418, delivering world-class services to clients across various sectors.

"Our second Service Excellence Award reflects the trust and confidence our customers place in us," said Jayne Carthy. "We are proud to be recognized for providing exceptional service and solutions, especially in industries where precision and reliability are paramount."

As an industry leader in printed circuit board assembly in Silicon Valley, Absolute EMS offers a wide range of advanced manufacturing capabilities, including touchless contract manufacturing and nitrogen reflow processes, ensuring the highest standards of quality and efficiency. The company's services are integral to medical manufacturing, military manufacturing, and satellite manufacturing, where product reliability is critical.
