Absolute EMS Enters Strategic Partnership with PTEC Solutions to Enhance End-to-End Electronics Manufacturing Capabilities

SANTA CLARA, CA — November 2024 — Absolute EMS, Inc., a six-time award-winning provider of fast turnaround, turnkey contract electronic manufacturing services (EMS), is excited to announce a new partnership with [PTEC Solutions](#), a highly respected provider specializing in design, cable and mechanical assembly services. This strategic collaboration aims to deliver a seamless and comprehensive service offering that caters to the growing needs of customers in the electronics manufacturing industry.

Both companies share a rich history, having been founded 27 years ago by visionary CEOs who continue to lead their businesses with dedication and success. Both companies are experiencing rapid growth, and PTEC Solutions has plans to expand operations by adding additional square footage at their Morgan Hill location, complementing their established facility in Fremont.

The partnership leverages the strengths of both organizations: Absolute EMS will provide cutting-edge assembly services to PTEC Solutions, while PTEC will offer their expertise in design, cable manufacturing, and mechanical assembly to Absolute EMS. Together, the companies are poised to streamline processes, enhance service capabilities, and deliver superior solutions to their clients.

“We are excited to partner with PTEC Solutions, a company whose values and vision align closely with ours,” said Doug Dow, COO of Absolute EMS “By combining our resources and expertise, we are set to provide unmatched, end-to-end services to our customers, all while maintaining our commitment to quality.”

Absolute EMS recently earned its ITAR (International Traffic in Arms Regulations) registration, with its state-of-the-art facility offering touchless electronics contract manufacturing, nitrogen reflow, and a satellite manufacturing model designed to enhance flexibility and efficiency. The company’s capabilities serve a variety of industries, including medical manufacturing, military manufacturing and high-reliability applications, with a focus on printed circuit board assembly in Silicon Valley. Absolute EMS also operates under NAICS code 334418 and is UL Registered.

For more information about Absolute EMS and their expanded service offerings, visit www.absolute-ems.com.

About Absolute EMS

Absolute EMS, located in the heart of Silicon Valley, offers award-winning manufacturing services in a state-of-the-art, high-technology EMS facility. The company won Global Technology Awards in 2020, 2021 and 2024 for its manufacturing services and was awarded ‘Most Improved Smart Factory’ by the Global Technology Awards in 2021. Founded in 1996, Absolute EMS originally serviced the medical industry, thus their focus on controlled electronics manufacturing that is scalable and repeatable. The Absolute EMS focused verticals are Medical, Military, Industrial, Networking, Aerospace, high performance computing, AI and Engineering. Learn more by visiting <http://www.absolute-ems.com>.

About PTEC Solutions

PTEC Solutions is a premier supplier of design, cable, and mechanical assembly services with facilities in Fremont and soon-to-be-expanded Morgan Hill, CA. With over two decades of experience, PTEC Solutions offers innovative and reliable manufacturing support, ensuring that products are efficiently designed and assembled to meet the highest standards.
