## **ANDA Receives GLOBAL Technology Award for Dispensing**

**FREMONT, CALIFORNIA — November 2021 —** Anda Technologies, a leading provider of fluid application and custom design manufacturing equipment, received a 2021 GLOBAL Technology Award in the category of Dispensing for its MPS-230 Material Preparation System. The award was announced during a ceremony that took place Tuesday, Nov. 16, 2021 during productronica in Munich, Germany.

The two-component material preparation system is suitable for self-leveling material, simultaneous material preparation and feeding. The different parameters of each material can be controlled to provide accurate distribution of materials. The MPS-230 is suitable to transfer silicone adhesive, polyurethane, epoxy resin, acrylic acid and other fluids for precise filling.

The MPS-230 offers accuracy of  $\pm 2$  percent. The metering system is controlled by servo motor to provide precision accuracy. The low cost, all-in-one system has a flow rate max of 1000 g/min and a tank capacity of 20 L / 30 L.

The GLOBAL Technology Awards have recognized the very best new innovations in the printed circuit assembly and packaging industries since 2005. The prestigious awards contest has been bringing together the global SMT and advanced packaging industry in a celebration of the companies and people that are achieving the highest standards and driving our industry forward.
