***Cementex Announces Range of T-Handle Tools Including
Hex Wrenches, 6-Point Socket Wrenches, and Drivers***

T-Handles provide superior grip and rigid construction for evenly distributed pressure

Burlington, NJ – [Cementex](#), the safety tool specialists, announces the availability of its T-Handle Driver Tools, including Hex Head Wrenches, 6-Point Socket Wrenches, and Drives. All of the T-Handle tools incorporate the superior Cementex 2-layer insulation system and solid core handle to distribute pressure evenly through the gloved hand. Made in the USA featuring hardened American steel, the T-Handle tools rigid construction prevents twisting and flexing while providing the quality customers rely on from Cementex as the industry leader.

The T-Handle Hex Wrenches are available in multiple shaft lengths and a range of combinations in order to meet each application's unique insulated hand tool needs. The wrenches can be purchased individually or in kits, and can be added to custom Cementex insulated hand tool kits. Additionally, the T-Handle 6-Point Socket Wrenches and Drives are available in a range of sizes and lengths to meet users' needs.

For more information about Cementex's industry-leading T-Handle tools, visit our online [catalog](#) and watch our [T-Handle YouTube Video](#).

###

About Cementex

Cementex is the innovative, industry-leading supplier of safety hand tools. As the only double-insulated hand tool supplier that controls the entire manufacturing process from insulation through testing, Cementex has an unparalleled commitment to quality and user safety. With constant innovation in response to customer needs, Cementex is on the cutting-edge of both custom and turn-key engineered insulated tools. The design-driven company is continually innovating while remaining committed to producing only the highest quality safety-based products.
