CircuitMedic Unveils the Ultimate Tool Set for Electronics Techs

May 30, 2023 - Haverhill, MA USA - CircuitMedic, a leading provider of innovative solutions for electronic circuit board repair and rework, has assembled the ultimate benchtop tool set for serious electronics technicians and professionals. This curated selection of nine finely-crafted tools will help electronics technician professionals tackle precision repairs on modern circuit board assemblies. Every tool offers unmatched precision, versatility, and reliability.

Carefully crafted to meet the exacting demands of modern electronics, this comprehensive nine-piece toolset is designed to help techs perform intricate repairs with ease and confidence, ensuring the longevity and optimal performance of electronic devices. Key features and benefits of the 201-7100 Precision Tool Set include:

High-Precision

The tool set boasts a collection of meticulously engineered tools. These tools enable users to handle the most delicate electronic components and circuit board features with exceptional precision and accuracy, minimizing the risk of damage.

Comprehensive

The Tool Set includes nine specialized instruments that cater to every aspect of circuit board repair, rework, and assembly. The toolset equips users with all the necessary instruments to successfully complete intricate tasks.

Durable and Reliable

Crafted from high-quality materials, the tools in the 201-7100 Precision Tool Set are built to withstand rigorous use in demanding environments. CircuitMedic's unwavering commitment to quality ensures that the tools provide exceptional longevity and reliability, making them indispensable assets for electronics professionals.

Convenient Storage

The tool set comes with a specially designed metal mesh storage tray. This ensures easy access, organization, and portability, allowing users to conveniently carry their precision tools wherever needed.

"We are thrilled to introduce the 201-7100 Precision Surface Mount Rework Tool Set to the market," said Bun Chhouy, Product Manager of CircuitMedic. "This tool set embodies our unwavering commitment to providing the highest quality and most effective solutions for electronic repairs. With its unmatched precision and comprehensive range of tools, the 201-7100 Tool Set empowers users to tackle the most intricate circuit board projects with confidence and expertise."

The 201-7100 Precision Surface Mount Rework Tool Set is now available for purchase directly from CircuitMedic's official website and authorized distributors. For more information about the toolset and other cutting-edge solutions offered by CircuitMedic visit www.circuitmedic.com/products/201-7100.html.

#####

Circuit Technology Center, founded in 1979, continues to be recognized as the most innovative and reliable specialist in circuit board damage repair, rework, BGA re-balling and component level modification services in the world.
