## **Cogiscan Partners with PCI Autotronics in India**

**BROMONT, CANADA, October 2020** — Cogiscan Inc., the leading provider of Track, Trace, Control (TTC) & IIoT solutions for the electronics manufacturing industry, is pleased to announce that it has teamed up with PCI Autotronics. for sales throughout India.

“With its rapidly growing electronics manufacturing base, we regard the India region as an extremely important market,” says Mitch DeCaire, Director of Business Development at Cogiscan. “We already have an established direct presence and customer base in India. So we wanted to find a local sales channel partner who could complement our internal resources to help us grow our business in this critical market. We chose PCI Autotronics based on their long history and strong relationships within the industry.”

“PCI Autotronics offers systems for PCB assembly – from single systems to whole line solutions,” explains Praveen Saini, PCI Autotronics’ Assistant General Manager (Sales). “We like to work together with different technology and market leaders. In partnering with Cogiscan, we can complement our existing offering to provide a complete solution for factory digitalization – something that is becoming increasingly important for today’s manufacturers.”

For the past 20+ years, Cogiscan has been widely recognized as the industry-leading expert in TTC and IIoT solutions for electronics manufacturing. During this time, the scope and depth of the Cogiscan
